Volunteer Assistant in the Periodontal Clinic at the II Faculty of Medicine and Surgery of the University of Naples, from 1983 until 1988;

Clinical /Surgical Dentistry private practice and specifically in Periodontology and Implantology since 1985

- Education and training

Due to participation in several courses and seminars and international contacts, I have built up a wealth of experience in addition to the modern technology methods for the application of leading edges medical technologies.

Due to the proper knowledge of British language, I have attended the Continuing Education at the “Institute for Advanced Dental Studies” managed by doctor Gerald Kramer and doctor Myron Nevins, Program Director, Department of Continuing Education, Harvard School of Dental Medicine since 1992 and I have also contributed, after being interviewed by doctor Cafesse, Director of the Institute of Periodontology University of Texas Houston, to be included in the Post Graduate Program limited to two only international students.

Following that, with the assistance of professor Nevins, Director of the Continuing Education Program of the Harvard University, I began the experiments on the morphogenetic bone proteins.

Attended the most important Masters e Congresses:

1988 – I attended at doctor De Paoli’s in Ancona the “Course in Guided Bone Implant, Periodontology and Surgery” and the following advanced courses.

2001 –I attended at the Institute for Advanced Dental Study. U.S.A., in “ Periodontics and Implant Dentistry” seminar;
